Intelligent Meeting Room

Powering productivity and meeting equity in the hybrid workplace

Leverage cutting-edge AI technology and our innovative RX meeting room devices to deliver seamless collaboration and true productivity to any meeting space.

AI-powered multi-stream video from multiple cameras creates a fully immersive experience.

Gen-AI meeting summaries enhance productivity - you can focus on the discussions and not on note taking.

AI-Powered
Video Features

High-quality center-of-room and PTZ front-of-room cameras offer full room coverage.

AI framing capabilities including Smart Gallery, Discussion Mode, Speaker Tracking.

Multiple camera orchestration keeps all participants - remote and on-site - constantly in the picture.

Large/XL
Meeting Room

Elevate your meetings with multiple camera arrays with AI-framing and speaker tracking to ensure that all participants can be seen and heard clearly wherever they are located. Integrate with 3rd-party pro AV kit to serve extra large rooms.

Built on
Microsoft Device Ecosystem Platform

RX-PANEL

Meeting Room Scheduler

A purpose-built Android, touchscreen room scheduler for Microsoft Teams Rooms with a LED indicator allowing participants to quickly see the meeting room's availability.

RX-PAD

Meeting Room Controller

The intelligent heart of the meeting room. An intuitive touch controller with an ergonomic and easily accessible design. Enables centralized control of all room devices and supports AudioCodes' unique content sharing capabilities.

RXV81

All-in-One Collaboration Bar

An Android collaboration bar with excellent audio and video performance for the ultimate hybrid experience in small meeting spaces.

RXVCam70

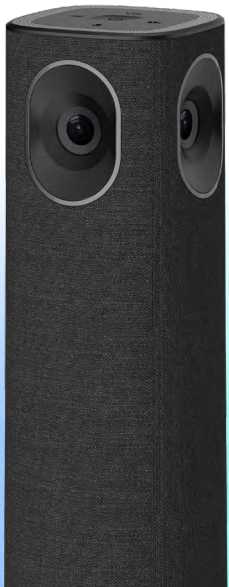
Dual-lens PTZ Video Camera

Powerful dual lens PTZ video camera with AI-enhanced framing and superb image clarity. Designed for medium-large sized meeting spaces.

RXVCam360

360° Center-of-Table AV Device

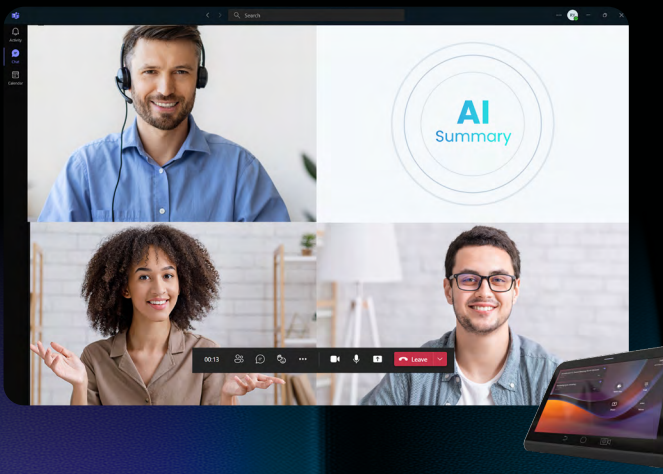
360° center-of-table integrated camera and audio device with AI-powered framing options. Complete with built-in microphone and speaker system, it is designed to elevate collaboration in small rooms and huddle spaces. Can be used as a BYOD or as part of a complete room solution.



AI Summary

Focus on the discussion, not on note taking

Automatically create and share AI-generated meeting summaries. In-room participants can focus their attention 100% on the meeting, without the distraction of manual note taking. No software installation required.



RXV200-B05ES

Android Intelligent AV Hub & Controller

Modular MTR on Android bundle powering rooms of all sizes from small up to XL with multiple camera feeds, AI-powered auto-framing and pro AV equipment integration.

Now with proven, robust security built on MDEP components.
